Description

At Base1 Sardinia, we are passionate cave divers dedicated to providing world-class overhead training. Nestled in Sardinia, the gem of the Mediterranean, we explore magnificent caves surrounded by the turquoise waters of the Tyrrhenian Sea.

We offer GUE Cave, Tech, and CCR courses at all levels, including GUE Instructor training and regular ITCs. Additionally, we host JJ CCR factory classes up to hypoxic levels, with external instructors held to the highest standards.

As the official home of SUEX, we feature a fleet of DPVs, Drive Sinapsi navigation systems, and double scooter frames. Our team is actively involved in cave exploration, mapping, and scientific projects under the organization Phreatic.org.

At Base1, we don't just train divers — we immerse them in our passion for adventure and discovery.
