Description

Cave Training Mexico is a premier dive center located in Playa del Carmen, Mexico, specializing in a comprehensive range of diving services. We cater to both recreational, cave and technical divers, offering personalized training and guided diving no experiences in the vibrant waters of the Riviera Maya.

Services Offered:

- **Technical Diving Courses:** Our technical diving programs are designed for divers seeking to explore beyond recreational limits. We offer courses in advanced decompression procedures, extended range diving, and the use of mixed gases such as Trimix. These courses are conducted under the guidance of experienced instructors, ensuring both safety and skill development.
- **Cavern and Cave Diving:** Explore the mesmerizing Cenotes and underwater cave systems of the Yucatán Peninsula with our specialized cavern and cave diving courses. We provide training from introductory cavern diving to full cave diving certifications, allowing divers to safely navigate these unique underwater environments. For those already proficient in cave diving we offer further education as stage or DPV courses and guided dives.
- **Rebreather Diving:** For those interested in extended dive times and reduced gas consumption, we offer rebreather diving courses. Training includes both manual and electronic closed-circuit rebreathers, providing divers with the knowledge and skills to operate rebreather systems safely.
- **Instructor Development Courses (IDC):** Advance your diving career with our Instructor Development Courses. We offer comprehensive IDC programs that prepare candidates to become certified diving instructors, capable of teaching a variety of courses from recreational to technical diving.

At Cave Training Mexico, we are committed to providing high-quality training and guided diving services, ensuring that each dive is conducted with the utmost safety and professionalism. Join us to explore the underwater wonders of the Riviera Maya and advance your diving skills.
