Description

Located in Playa del Carmen, Quintana Roo, **Dive Rite Mexico** is a team of local diving experts dedicated to high-quality, personalized training and exploration. As an **SDI/TDI 5-Star Instructor Development Center** and proud members of the **National Speleological Society**, we specialize in **cave, rebreather, technical, recreational, and instructor development programs** at all levels.

With over 20 years of experience exploring oceans, caves, and caverns around the world, our mission goes beyond diving — we aim to share our knowledge, document our discoveries, and guide others to experience the magic once reserved for the first explorers.

We uphold the **highest safety standards** in the industry while offering **world-class instruction, exclusive expeditions, and professional underwater photography and filmmaking opportunities**. Our training facility includes classrooms, equipment storage, a wet area, and dedicated spaces for technical divers. We provide a full range of cylinders, gas mixes (including 100% O₂ and Trimix), rebreather absorbents, and DPVs, as well as access to top-of-the-line **Dive Rite gear**.

We also operate our own **dive boat for up to 16 divers**, running two trips daily (morning and afternoon) with convenient access to Playa del Carmen's stunning reefs.

As **Mexico's largest Optima CM training center**, we offer complete support — including instruction, servicing, parts, rentals, and sales. As the **official Dive Rite store in Mexico**, we supply high-performance equipment for cave, CCR, technical, and recreational diving, backed by direct factory service.

Our team of **internationally recognized instructors** are active explorers, researchers, and mentors who bring decades of experience to every course and expedition. Whether you're pursuing certification, exploration, or adventure, **Dive Rite Mexico** is here to help you achieve your goals and discover the underwater world like never before.
