## Description

---

ProTec Dive Centers has been providing innovative and industry leading technical dive training since 2001. We specialize in overhead training and cave diving, exploration and CCR diving. Our team of international instructors teaches in several languages and are active in local and international exploration, scientific diving and equipment testing and design.

Our training centers are the biggest hub of Kiss Sidewinder CCR training in Mexico with three factory approved CCR Instructors, a CCR dedicated facility, CCR supplies and retail, support and storage, and rental units.

We also provide guided dives for certified divers of all levels, from recreational cavern tours to Cave CCR, trimix and DPV diving in the Mexican cenotes.
